## Summary

---

A detail-oriented Python Developer with strong foundation in Django, REST APIs, SQL, data analysis, and full-stack web development. Experienced in designing scalable applications, debugging system issues, and translating functional requirements into efficient technical solutions. Skilled in writing clean, maintainable code, automating workflows, and collaborating with cross-functional teams to deliver high-quality software.

## Experience

---

### Django Developer Intern

Nov 2025 – Jan 2026

Hawk'N Technologies | Remote

- Worked on live Django projects, developing clean and modular features.
- Integrated frontend components using HTML, CSS, and JavaScript.
- Designed and managed databases with SQLite and PostgreSQL.
- Debugged and fixed issues across backend and frontend modules.

## Certifications

---

### Entri Elevate Django Web Development

Entri Elevate, Kochi | Apr 2025 – Oct 2025

- Completed an intensive industry-aligned training program focused on full-stack Django development.
- Gained hands-on experience with Python, Django, Django REST Framework, SQLite, PostgreSQL, HTML, CSS, JavaScript, Bootstrap, Git, and Postman.
- Designed, developed and deployed responsive Django web applications on PythonAnywhere.

### Capstone: Applying Project Management in the Real World[\[Verify\]](#)

Coursera | Oct 2025

- Completed a practical capstone project applying agile and waterfall methodologies to manage project deliverables.
- Determined quality standards and evaluated project outcomes to ensure alignment with required quality benchmarks.

### Foundations of Project Management[\[Verify\]](#)

Google Career Certificate, Coursera | Sep 2025

- Completed training on core project management principles including project life cycle, stakeholder management, and risk analysis.
- Learned to define project goals, scope, and success criteria to ensure alignment with stakeholder expectations.

### Python Django: Complete Web Development Course[\[Verify\]](#)

Udemy | Jul 2025

- Learned end-to-end web application development using Python, Django, and REST API integration.
- Implemented CRUD operations, authentication, and database management for scalable web apps.

## Technical Skills

---

**Frontend:** HTML, CSS, JavaScript, Bootstrap, Tailwind CSS, React.js, Figma

**Backend:** Python, Django, PHP, Django REST Framework

**Database:** SQLite3, PostgreSQL

**Tools:** Git, GitHub, PowerBI, Docker, Excel, Postman, Render

## Soft Skills

---

- Communication
- Teamwork
- Problem-solving
- Time Management
- Adaptability

## Projects

---

### Interactive Educational Platform for Students with Autism [\[GitHub\]](#)

Oct 2025 – Ongoing

- Developing NEURO, a Django-based learning and therapy platform that provides role-based experiences for Parents, Therapists, Teachers, and Children.
- Built role-specific dashboards, registration flows, and profile management to support distinct workflows for each user type.
- Designed and implemented the Visual Schedule system with task creation, assignment, completion tracking, and progress analytics.

### Chatx – Social Media Web Application [\[GitHub\]](#) [\[Live\]](#)

Aug 2025 – Oct 2025

- Developed a full-stack social media platform using Django, enabling users to register, follow, upload posts, reels, like, and comment on content.
- Implemented a real-time private chat feature using AJAX polling with Django REST API endpoints secured by CSRF, enabling dynamic message updates without page reloads for a seamless DM experience.
- Implemented user authentication, profile management, and media uploads with Django's authentication system.
- **Tech:** Django, Python, SQLite, Django REST Framework, HTML, CSS, Bootstrap.

### SignLearn – Sign Language Learning Platform [\[GitHub\]](#)

Jan 2025 – Apr 2025

- An interactive front-end web app to deliver responsive sign-language lessons, quizzes, and exercises with polished UI effects.
- Organized media assets and CSV datasets for modular content, optimized pages for responsiveness and accessibility, and structured the codebase for easy future backend integration.
- **Tech:** SQLite, HTML, JavaScript, CSS.

### MobiShop – E-Commerce WebApp with Razorpay Integration [\[GitHub\]](#)

Nov 2024 – Dec 2024

- Developed a responsive e-commerce platform supporting product management, cart functionality, and secure payments using Razorpay API.
- Implemented user authentication, order tracking, and an admin panel for CRUD operations.
- **Tech:** Django, Python, SQLite, HTML, CSS, JavaScript, Bootstrap, REST API.

## Education

---

**B.Tech in Computer Science**, Dr. A.P.J. Abdul Kalam Technical University (AKTU), Kerala  
CGPA: 7.5/10

2022–2026

## Languages

---

- English
- Hindi
